# Authenticator

## What can you use Authenticator for?

Perform multi-factor authentication to gain access to Endeavour Foundation resources and data on your mobile and laptop.

## Who can use Authenticator?

- Everyone!

## Setting up your Authenticator account:

**1** Open the authenticator app on your phone

**2** Click the **'+'** symbol to add an account and choose **'work or school'**

**3** Log in using your Endeavour Foundation credentials

**4** Go to **'Settings'**

**5** Scroll and enable **'Require Biometric or PIN'**

**6** You can now complete MFA using your fingerprint or Face ID
