

Increase your take home pay

As an employee of your organisation, you are eligible for salary packaging. This means you can reduce how much tax you have to pay on your income and hence, increase your take home pay.

How does it work?

If you choose to salary package, a portion of your income won't be taxed each year (up to \$15,900), and you have the freedom to use this allocation to pay for everyday items including groceries, rent or mortgage repayments, fuel for your car and more. This gives you the ability to have more money to spend on everyday items.
