- Pre-apprenticeships
- Women in Construction

Possibilities unlimited

When it comes to making a difference in regional communities, we know there is no greater power than collaboration.

Over the past 25 years, we have joined together with like-minded organisations to expand our services across Queensland, New South Wales and Victoria.

Today Community Solutions and BRACE deliver over 15 services, supporting more than 8,000 people across three states.

Community Solutions delivers employment services, specialist services, apprenticeships and traineeships, and specialist employment.

BRACE, our registered training organistaion (RTO) specialises in delivering vocational training courses, and foundation skills courses.

We make a real difference in people's lives through employment, education and training and specialist disability support to individuals, families and communities.

As #TeamPossible, we pride ourselves on working with the people we support, their families and their communities to ensure we are meeting identified needs and expectations. Through connection, knowledge and high-quality service delivery, we help enrich and enhance the lives of those we support.

Since joining with Endeavour Foundation in 2014, we can now reach more people and support them in more ways than ever.

Together we are #TeamPossible, supporting people and communities to realise the unlimited possibilities.
